S-VYASA Deemed to be University

School of Advanced Studies

Introduction

May 2025 marked the culmination of several academic and co-curricular activities in the Department of Engineering and Technology. From CIA-3 and lab examinations to vibrant student participation in university-level events, the department continued its mission of fostering holistic student development. New faculty members have also joined the department, enriching the academic environment.

Academic Activities

- **Third Continuous Internal Assessment (CIA-3) and Lab Examinations**
CIA-3 and laboratory exams were conducted during the month of May. The assessments focused on testing students' conceptual understanding and practical skills. Faculty ensured smooth coordination of schedules, syllabus coverage, and transparent evaluation.
 - **Semester-End Examinations**
The even semester examinations commenced on **26th May 2025**. The department coordinated with the central exam office to ensure the smooth conduct of exams, adhering to university regulations and academic integrity protocols.
-

Institutional/Departmental Initiatives

- **Faculty-Student Mentorship Program**
Mentorship sessions were held to provide students with academic guidance, emotional support, and career counseling. Faculty members reported positive engagement and improved rapport with mentees.
-

Curriculum Development & Academic Governance

BoS or Academic Council meetings were conducted in the month of April. Hence, post-meeting actions from the April curriculum revisions were set in motion, including aligning course delivery plans with the new credit structure and implementing feedback mechanisms for the next academic year.

Student Achievements and Co-curricular Highlights
