

B. Com

Programme Outcomes

The BCom (Bachelor of Commerce) programme integrated with ACCA (Association of Chartered Certified Accountants), aims to equip students with a robust combination of academic knowledge in commerce and accounting along with professional qualifications recognized globally through ACCA. Here are the programme outcomes

- **Business Knowledge:** Demonstrate a solid understanding of fundamental concepts, theories, and principles in business administration, including accounting, finance, marketing, management, economics, business law, and organizational behaviour.
- **Analytical and Critical Thinking Skills:** Analyse and evaluate business problems, trends, and opportunities using critical thinking, quantitative analysis, and decision-making techniques, as well as be proficient in synthesizing information, identifying patterns, and making informed decisions to solve complex business challenges.
- **Communication Skills:** Possess strong communication skills, both oral and written, allowing them to effectively convey ideas, present information, and interact with diverse stakeholders in professional settings, and be capable of preparing clear and concise business reports, presentations, and proposals.
- **Teamwork and Leadership Abilities:** Demonstrate ability to work collaboratively as part of multidisciplinary teams, demonstrating effective teamwork, communication, and conflict resolution skills, and exhibit leadership qualities, such as initiative, accountability, and the ability to motivate and inspire others to achieve common goals.
- **Ethical and Social Responsibility:** Understand the ethical and social responsibilities of businesses and demonstrate ethical decision-making in their professional conduct, be aware of the impact of business activities on society, the environment, and stakeholders, and strive to uphold ethical standards and corporate citizenship.
- **Entrepreneurial Mindset:** Use entrepreneurial mindset, including creativity, innovation, and risk-taking propensity, to be able to identify opportunities, develop business ideas, and evaluate feasibility to pursue entrepreneurial ventures or intrapreneurial initiatives within organizations.
- **Global Perspective:** Develop a broad understanding of global business environments, including international markets, cultures, trade policies, and geopolitical factors to enable analysis of global trends, opportunities, and risks and adapt business strategies to operate effectively in the global marketplace.
- **Technology Proficiency:** Proficient in using technology tools and applications relevant to business operations, including enterprise resource planning (ERP) systems, customer relationship management (CRM) software, data analytics tools, and digital marketing platforms.
- **Professional Development and Lifelong Learning:** Recognize the importance of continuous learning and professional development in their careers and be proactive in seeking opportunities for further education, skill enhancement, and career advancement to adapt to evolving industry trends and market demands.
- **Employability and Career Readiness:** Apply skills to be well-prepared for entry-level positions in business and management roles across various industries with the necessary knowledge, skills, and attributes to succeed in the workplace and add value to organizations from day one

BCom in International Finance and Accounting with ACCA Accredited Program - Program Specific Outcomes (PSOs)

The **BCom in International Finance and Accounting** with an **ACCA (Association of Chartered Certified Accountants)** accredited program at **S-VYASA School of Advanced Studies** is designed to provide students with a deep understanding of global finance and accounting practices, alongside the prestigious ACCA certification. The **Program Specific Outcomes (PSOs)** for this program reflect the skills and competencies students will acquire upon completing their course of study:

1. **Global Accounting and Financial Reporting Skills**
Students will develop the ability to prepare, analyze, and interpret financial statements in accordance with international accounting standards such as IFRS (International Financial Reporting Standards). They will be equipped to manage accounting practices in diverse, global business environments.
2. **Expertise in International Taxation and Compliance**
Graduates will gain knowledge of international taxation principles, cross-border tax strategies, and compliance with global tax regulations. They will be prepared to assist businesses in optimizing their tax structures and ensuring legal compliance across jurisdictions.
3. **Strategic Financial Management**
Students will acquire skills in financial analysis, budgeting, and investment decision-making at both corporate and global levels. They will learn to evaluate financial risks and opportunities, making informed strategic decisions for businesses operating internationally.
4. **Understanding of Corporate Governance and Ethics**
Students will develop an in-depth understanding of corporate governance practices and the ethical responsibilities of financial professionals. They will be prepared to apply principles of transparency, accountability, and integrity in business operations, adhering to both legal and ethical standards.
5. **ACCA Qualification Readiness**
Students will be fully prepared to pursue and successfully complete the ACCA qualification, gaining professional recognition in accounting and finance. The curriculum is designed to meet ACCA's global standards, ensuring students are ready to take on professional challenges in the finance and accounting sectors worldwide.
6. **Financial Markets and Investment Analysis**
Students will develop an understanding of global financial markets, investment strategies, and the impact of market forces on businesses. They will be able to conduct investment analysis, evaluate financial instruments, and understand market trends to make informed decisions for investors and firms.
7. **Technological Proficiency in Financial Tools**
Graduates will acquire proficiency in using financial software tools and technologies, including ERP systems, data analytics platforms, and accounting software. They will be capable of automating financial processes, improving efficiency, and enhancing decision-making using technology.
8. **Communication and Professional Skills**
Students will develop strong communication skills, enabling them to effectively present financial information, reports, and analysis to diverse stakeholders. They

will also enhance their professional skills, such as teamwork, leadership, and project management, essential for success in the finance and accounting profession.

9. **Risk Management and Internal Controls**

Students will gain knowledge in assessing and managing financial risks, implementing internal controls, and ensuring financial integrity. They will be prepared to establish and monitor risk management frameworks for organizations, safeguarding assets and ensuring operational effectiveness.

10. **Global Business and Cross-Cultural Financial Insights**

Students will understand the global business environment, including cross-cultural differences in financial management and accounting practices. They will be able to work efficiently in international and multicultural teams, applying best practices in financial management across different countries and regions.

Upon completion of this program, students will be well-equipped to pursue careers in international finance, accounting, and business management, both within India and globally. They will possess a strong foundation in finance, accounting, and the essential skills needed to thrive in today's dynamic global economy.
